**Circular No.12/2020-21**

**' Home Schooling during Lockdown'**

**Learning continues in Pavithra school**

Dear Parents,  
Greetings!

In the light of the COVID-19 outbreak and the subsequent directives by the State Authorities has lead to the closure of schools and is obstructing the learning of the students. We understand, the massive closures present a daunting challenge for both students and parents, yet we would seek your cooperation in the wake of this pandemic, to make this time a productive and happy one for our students. We are initiating a process to provide fruitful academic experiences for our children and therefore we plan to go for **online teaching**.

With so much free time, we believe keeping kids on a routine is important. **The school and all the teachers are working hard to give that routine back to students soon through virtual learning and online classes.** These next few days will be onerous for our teachers as they are going to prepare for distance learning though online content, pre-recorded videos, taking live online classes, preparing worksheets and CRT's from home. Thus, soliciting your support, we would request you to **make necessary arrangements at home (wi-fi connections, accessibility to laptops or PC's for students, etc.)** so that children can attend the online sessions.

Furthermore, for making this effective **we have chalked out a digital plan and a weekly schedule of how the classes will be conducted online. The detailed time table and process of connecting over ZOOM Platform or Microsoft Tools will be made available to you through mail by the Principal. The teachers will be conducting Online Orientations** also with parents and students to help you understand the rubrics of virtual learning. **The schedule and the invite by the individual subject teachers will be shared through mail or whatsapp with you soon, along with online content (in absence of books) videos ,worksheets, home fun ,CRT etc.**

In times of uncertainty we are not sure when we will be able to resume regular classes and also depend on the directives of the government. The health and safety of our students and staff is always our number one priority. We are working hard to develop a plan to provide and support distance learning for our students. **As this is a new initiative by the School Management and the teachers aswell, we are trying to ensure that the learning continues.** During the process we may face new challenges, so we urge you to be a part of this journey and support us in this endeavour for the betterment of the child.

Be Careful! Be Safe! Be Happy! Spend time with your loved ones!
