## Pavithra International School Guidelines – Home Learning Plan FYP

### Circular No.9/2020-21

Dear Parents,  
Greetings!!

You may be worried about your child's learning and academic progress. But this time right now is their biggest opportunity to learn from real life as we all are undergoing this crisis globally. Go easy on keeping them occupied for long hours with schoolwork, especially written work.

Here are some things you need to know to setup this routine at home:

- Tell your children that their teacher has sent some fun work to do at home with you
- Allocate a time and set it aside for learning everyday
- It is not mandatory to cover all suggested activities. Time recommended are suggestions. Allow the child as much time as they need/prefer.
- More than anything else, let this time be as enjoyable as possible.
- Story time sessions are designed to be a time for meaningful and natural language use. The guidelines on supporting material is provided for you to implement story time with ease. It is an opportunity to learn new words/ spelling in an engaging manner (word games that can include family members) helps develop a love for books and for building a reading habit at home
- The suggested questions promote comprehension and critical thinking.
- And creative expression is an opportunity for all the members in the family to participate.

The planner will give you all the necessary information on what to do each day. The tasks for each week will be updated in the same folder. The folder will contain worksheets, colouring sheets and activities for children to work on at home.

You can choose to print the material if you have access to a printer or keep it open on your system, tablet or phone and encourage children to work in their notebooks.

Do not worry about right or wrong. Use this time to experience the magic of bonding as a family. Enjoy exploring the Home Plan. We hope you have fun learning with your children and getting to know them better. And do not forget, we're all together in these tough times ahead.

Regards  
Principal
